

Bond.ai Community × Blooming *Pilot Partnership.*

AI Hackathon · San Francisco · May 2026

APRIL 2026

Prepared by Alison Granger, Co-Founder & CEO

BLOOMING × BOND.AI

BLOOMING

WEAREBLOOMING.CO

THE OPPORTUNITY

Two operators. One *gap* worth closing.

This Tuesday, Sahar and I met for the first time, which was a great encounter, considering how many events we've both been at on the same Luma page. We've been orbiting the same ecosystem for several years. This is good momentum.

What Bond brings

- Audience trust — companies follow AI Tidbits, attend Bond events
- Sponsor relationships built over years in the SF AI ecosystem
- Inbound demand from companies who can't replicate that reach

What Blooming brings

- Production engine — 150+ events: IBM, NVIDIA, Google, Canva
- Alison Granger AI Ecosystem network — 70K+ reach, 15k dev community credibility in SF
- Flawless execution under tight timelines, every time, each timezone.

Sahar brings audience reach and sponsor relationships. Alison brings production excellence and developer community credibility. Together, we deliver what companies we know expect at the level they demand.

THE PILOT

One event to *test the format.*

FORMAT

1-Day AI
Hackathon

ATTENDEES

80 Qualified
Builders

LOCATION

San
Francisco

TIMING

Mid-End of May
2026

SPONSORS

Starting at 2
Companies

Bond · AI Tidbits

- Leads sponsor outreach and closes deals
- Pays event expenses upfront to Blooming Events.
- Brings Bond audience and AI Tidbits community

Blooming Events by Alison Granger

- Leads full production and logistics online
- Brings curated attendees list for participant outreach
- Manages day-of presence the day of the hackathon

80%+

ATTENDEE SATISFACTION

100+

EVENTS ARCHITECTED

10+

YEARS OPERATING

HACKATHON THEMES

Three *directions*.

AI Agents in Production

Build agents that ship real impact through demos.

AI for Developer Productivity

Build AI tools that make developers 10× more productive.

AI for GTM & Growth

Build AI tools for sales, marketing, and growth teams.

Work in progress — this is the core work of the collaboration. Example: "My ICP is primarily startup founders (Series A and below) — do you have a sense of the demographics of the attendees?" · 15k attendees list · Portfolio for reference · Last past event demonstrated high interest in "Live Demo" format · 120 attendees

ONCE CONTRACT SIGNED

Immediate deliverables.

01

Overall Schedule

- Sharing trusted inputs about pre-event, day-of, and post-event milestones

02

Operations Plan

- Pre-event coordination — venue, sponsors, judges, mentors, platforms
- Day-of execution — setup, programming, logistics
- Post-event wrap — deliverables, follow-ups, reporting

03

Work Session: Define the Hackathon

- Final theme selection — Agents, Dev Productivity, or GTM
- Challenge structure and prerequisites
- Launch publication and messaging
- Sponsor outreach strategy

SPONSORSHIP PACKAGE — STARTING AT \$2K · PILOT TEST · AIMING FOR \$5K

80 qualified builders. *8 hours. One room.*

Visibility

- Equal logo on all materials — website, emails, signage, excellent & unique atmosphere
- Event co-branding: "AI Hackathon powered by [Sponsors]"
- LinkedIn, newsletter & X mentions

Engagement

- 10-minute speaking slot — demo, API walkthrough, or use case
- Booth space with good placement
- Optional: "Best use of [Company] API" prize (\$500–\$1,500)
- API credits distributed to all participants
- Dedicated Discord channel

Data & Access

- Opt-in attendee list — names, emails, LinkedIn
- Warm intros to winning teams
- Post-event report — photos, metrics, feedback
- Recruiting pipeline — access to top talent in the room

Prizes are paid directly by sponsors outside the sponsor fee. Each sponsor defines their own prize amount, format, and category — cash, API credits, or product licenses.

The *Event Engine*.

Pre-Event

- Venue sourcing, negotiation & contract
- Catering coordination (80 attendees)
- AV/tech setup & recording
- Secondary sponsor outreach via Alison network
- Sponsor coordination — challenges, prizes
- Curated database outreach & registration
- Devpost setup for submissions & judging
- Discord server — participant channels

Day-Of

- 7am: Setup — tables, chairs, signage, AV
- Registration desk — check-in, badges, swag
- Emcee/host coordination
- Speaker & workshop timing management
- Mentor circulation coordination
- Real-time troubleshooting
- Demo & judging logistics (5pm–7pm)
- Winner announcements & prize handoff
- Venue teardown & equipment return

Post-Event

- Event report — attendance, photos, folder, metrics
- Opt-in attendee list to sponsors
- Intro emails — sponsors to winning teams
- Thank you emails to all participants
- Post-event survey & feedback collection

TEAM ONSITE

- 1 lead operator
- Volunteers: Morning (Set Up) · Launch (Catering) · Evening (Final Demo)
- Curation of trusted partners: F&B, AV, Venues

SCOPE TO BE DEFINED

- Judges & mentors recruitment & briefing

ADD-ON DELIVERABLES

- Social media content creation — LinkedIn & X
- Videos & photos

INVESTMENT & REVENUE

The Pilot.
Let's make it work.

PROFIT

Best case (free venue)	\$7,960–\$17,960
Standard (paid venue)	\$3,175–\$13,175
Break-even	2–3 sponsors

PROFIT SPLIT 80% 20%
BOND BLOOMING

Media production: price on demand · \$1.5k–\$3k pocket

1 pilot event. *Crash test the format.*

Let's ship what we do best.

The ideal way to validate a partnership is to do the work. One hackathon in SF — ideally mid or end of May. Date to be confirmed upon validation.

- Align on hackathon theme — pick the one with the strongest sponsor momentum
- Bond leads sponsor outreach, Blooming starts venue sourcing in parallel
- Lock 2 sponsors to confirm the pilot — go from there
